Infinity Modular Carpets are suitable for use across all segments of the commercial market including:

- Education • Healthcare • Office • Banks
- Universities • Retail • Hospitality • Public Space
- Multi-Residential Apartments

CARE & MAINTENANCE

The beauty and life of your carpet depend on the care it receives. Proper cleaning will keep your carpet looking great for its full lifetime, help improve your indoor air quality also.

- A good vacuuming program is essential to successful carpet maintenance as it reduces the frequency of periodic maintenance procedures required to maintain clean carpet.
- It is very important that the carpet tile is not over wet when using the deep cleansing process as this could cause irreparable damage to the carpet tile.
- A daily spot and stain removal process should also be implemented. Remove stains or spills immediately using clean warm water.
- It is also important that effective entrance barrier matting is installed at every exterior entrance. Avoid excessive use of cleaning products. Regular maintenance will help to preserve the appearance and extend the life of the carpet.
- Spots must be removed soon as they are noticed. Cleaning of soiled areas when they begin to show is essential. This can be done by a wet extraction system.
- Remove as much of food spills as possible by scraping gently with a spoon or dull knife.

RECOMMENDED INSTALLATION METHOD

Quarter Turned

Brick

Monolithic

Static Electricity
Permanent Lifetime Protection-less than 3.5kv.

Lodging-resistant
superior resilience of fiber,suitable for wheels.

Anti Rubbing and feet trample because of fiber's properties

Dimensional Stability
Warranted not to change in size by more than 0.5mm in normal use will nor dome or dish in normal use.

Colour Fastness to Rubbing
According to GB/T3920-2008 standards it is ≥ Grade 4 for dry rubbing
≥Grade 3 for wet rubbing.

Superior Sound insulation effect

Anti-soil Treatment
Soil resistance treatment.

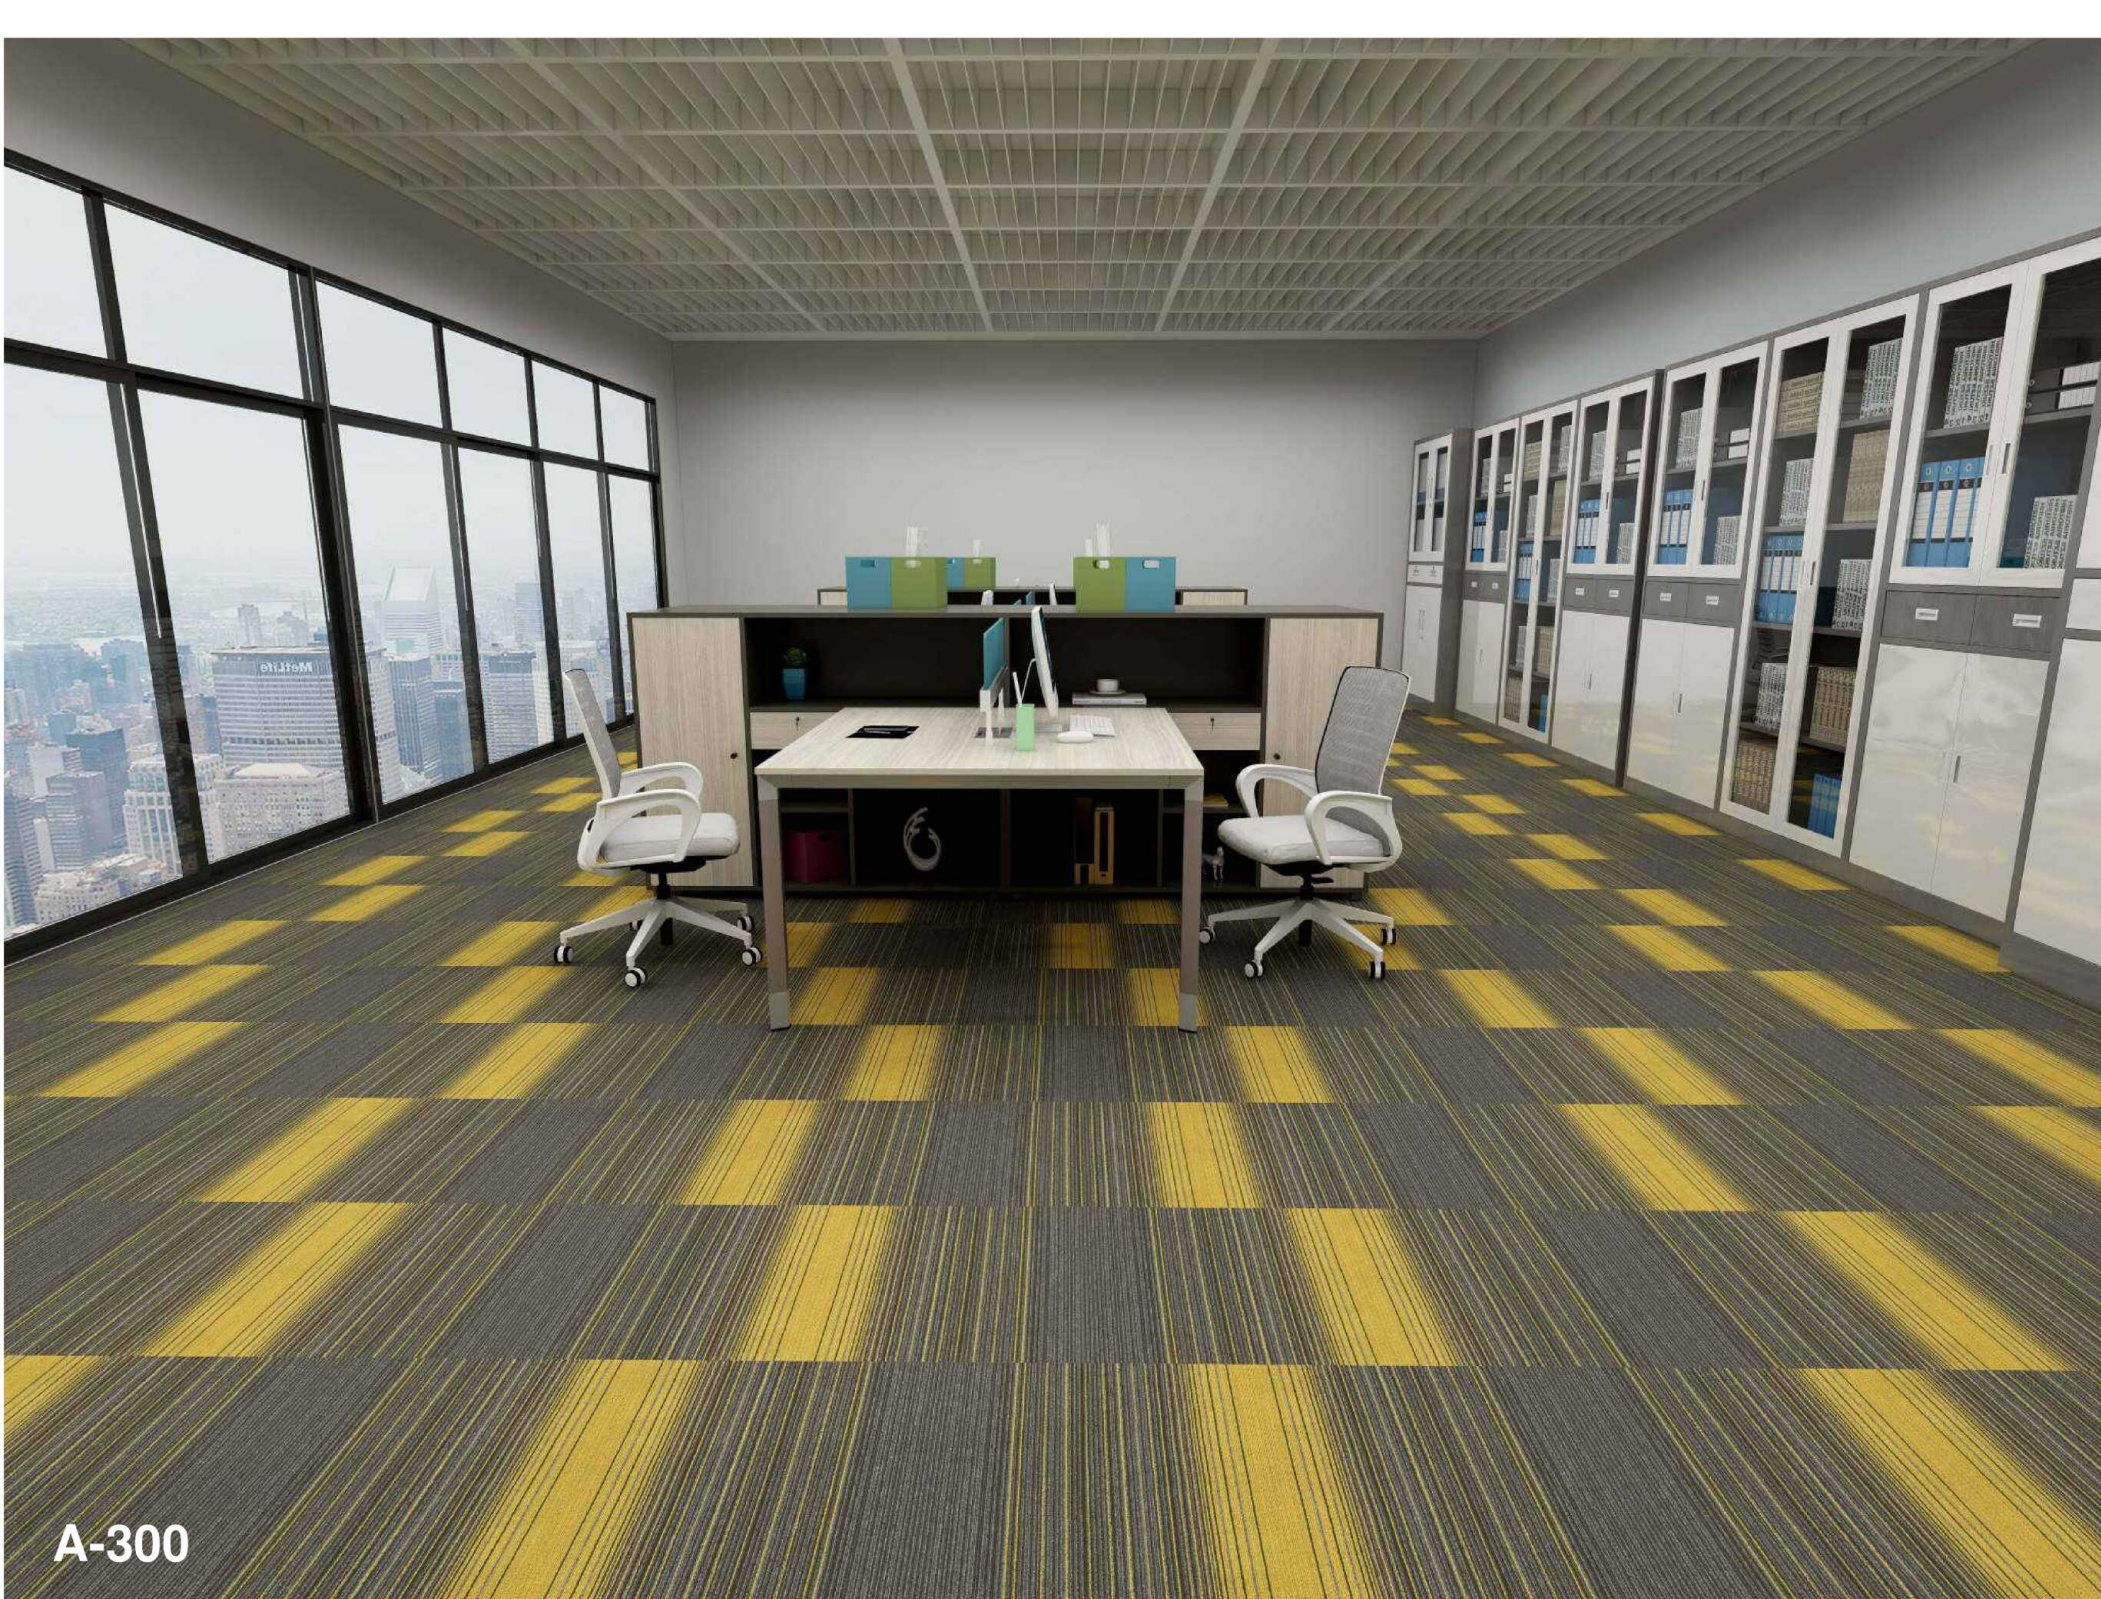

Wear Warranty
Product is warranted not to lose more than 15% pile fiber by weight in normal commercial use within 15 years.

Installation
Tackifier or releasable Adhesive Recommended.

Sustainability
All yarns used are Solution dyed to minimize use water
And exclude any effluent production.
ISO14001 and ISO9001.
